

PARKVIEW MEDICAL CLINIC PRIMARY CARE PRICE TRANSPARANCY

Minnesota now requires primary care clinics to post their top 25 most commonly billed services over \$25.00. The amounts below do not necessarily reflect what each patient may pay as insurance plans dictate the paid and write-off amounts, not the clinic. Please also note, this list is not consistent for primary care clinics, so the transparency is effectively limited. There is little to no transparency required by the insurance companies. We recommend you reach out to your local representatives to encourage equal and fair transparency amongst clinics and insurance payers.
