

**Exciting News – AskYourDoc has a new, reduced fee!  
No better time than the present to download AskYourDoc, an easy to use app  
that connects you to your doctor.**

The AskYourDoc fee is now \$10 per visit! With this update, Parkview Clinic will submit a charge for an electronic visit to your insurance company to cover the rest of the cost of the visit.

AskYourDoc can be used for Urgent care and follow up visits and, in this time of COVID, to decrease the need to come into the office. Consider using AskYourDoc for the following:

- Follow-up visits
- Prescription updates
- Many urgent-care needs
- Medicine side effects
- Other medical concerns that may not require you to be seen in person

Parkview Medical Clinic is now more accessible to everyone with improved communication through AskYourDoc. With AskYourDoc we are ensuring continued easy access to care in these unprecedented times.

NOTE: Please upgrade your app for the newest version!! Go to your Apple App store or Google PlayStore and search for AskYourDoc (no spaces) and select to upgrade your app.
